Dear Sirs

Re: Parish Boundary Review

You have received a letter from [Redacted]
Redenhall, Nr. Harleston, Norfolk. IP20 9QJ; requesting a change of boundary. They have requested that their property be put fully in to Alburgh as per the map they have sent you as well.

The purpose of this letter is to let you know that Alburgh Parish Council fully support this application and hope the boundary can be changed as they have requested.

Yours faithfully

June 2nd 2017

Dear Sir,

With reference to the Parish Boundary review and the possibility of changing these boundaries, we would like to propose a change.

The Alburgh /Wortwell Parish boundary at present dissects our property of [REDACTED]. As we lie close to the village of Alburgh and within sight of the parish Church which we support, could you change the present parish boundary? At present the Alburgh boundary goes across our field. Could you move this to follow the present road layout, thus putting our property fully into Alburgh and no longer Wortwell as well.

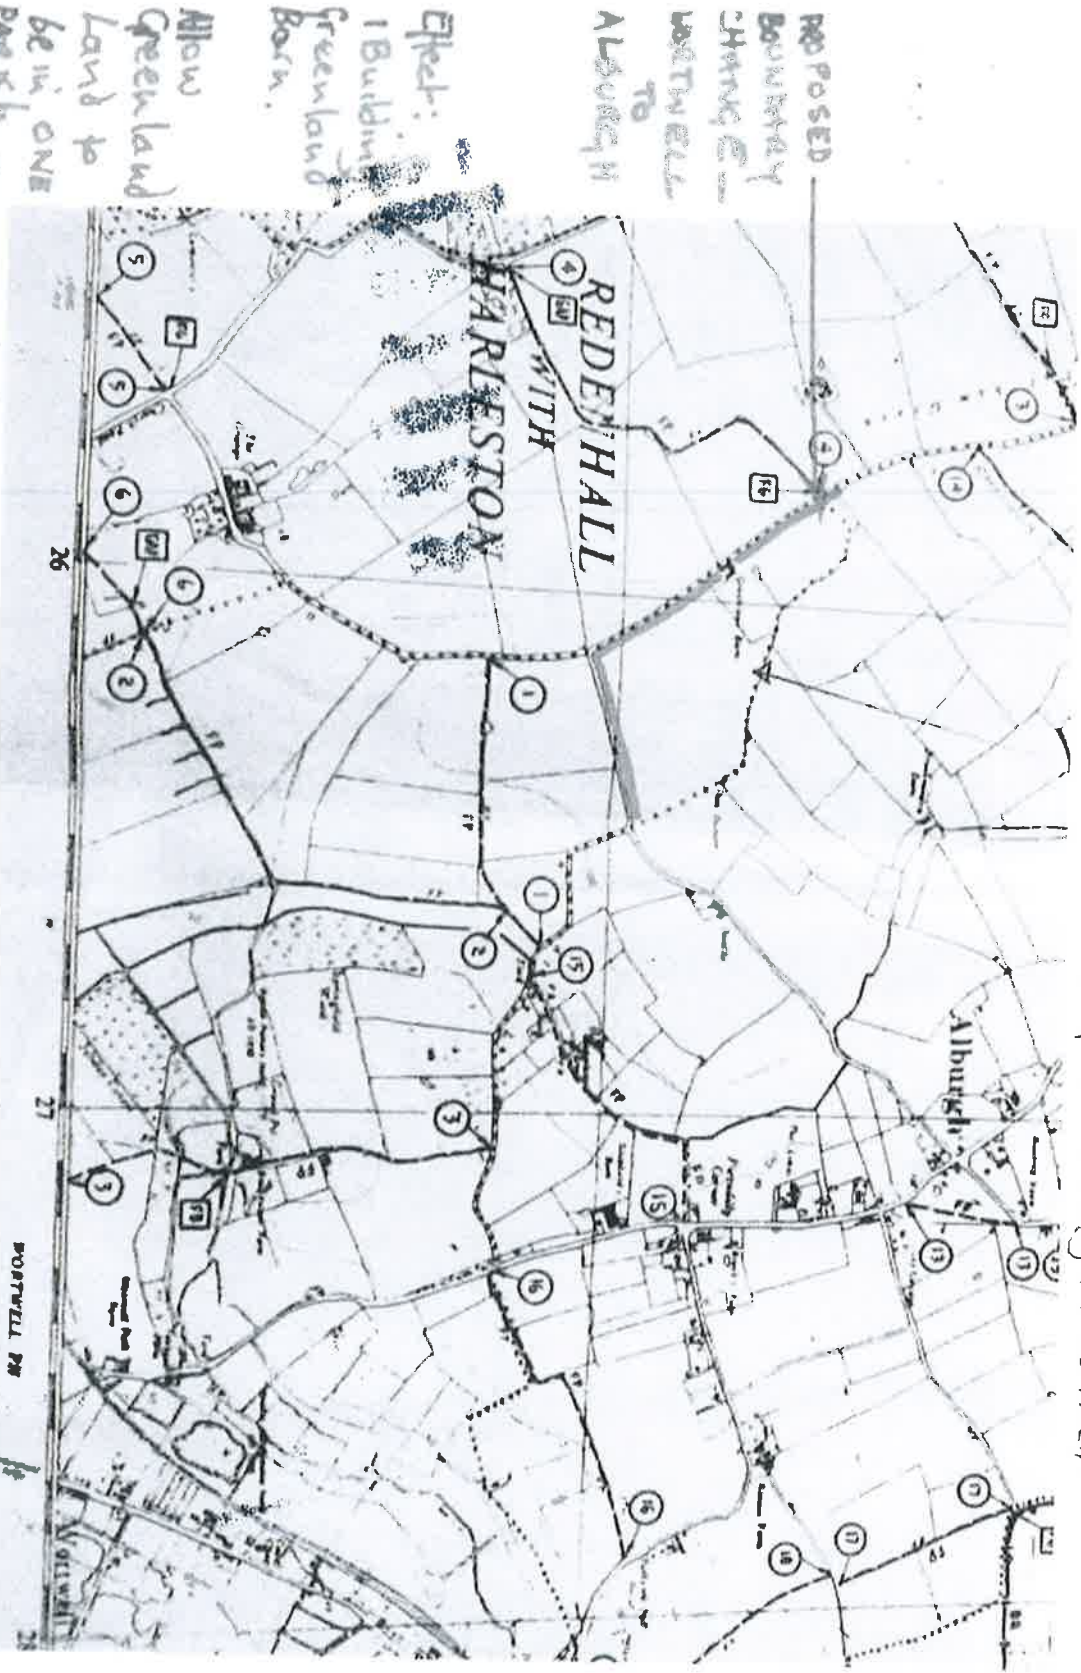

Thus our proposed parish boundary would follow Burnt Oak Lane south to the junction with Low Ditch Road, then along Low Ditch road until it meets the junction with Stony Lane.

We have raised this matter at the last Parish Council meeting where our District Councillor Dr Gray was present both on 4th July 2016 and June 2nd 2017. Neither he nor the Parish Council could see any objection, as it only would affect our house.

Yours sincerely,

[REDACTED]
