Support the officer recommendation
- Have lived in Wortwell for 33 years and know the site and its history well both from regularly using nearby footpath and as the former District Councillor.
- Barn is one of two listed barns that were bought by the applicant to convert into dwellings, one of which has been completed
- The applicant removed cladding that had been added to protect the barn in the 1990s which unfortunately allowed strong winds to enter the barn during a winter storm resulting in its collapse
- A timber frame using modern timbers was subsequently erected up to roof level
- The applications to reconstruct the barn was considered in 2014 where it was deferred to determine whether the original roof timbers, particularly the queen posts, could be used to re-construct the roof
- It is now clear that this is not feasible and that the structure would be entirely in modern timbers, with some originals inserted purely cosmetically
- What is proposed therefore is tantamount to a new dwelling in the countryside and does not meet the requirements of Council policy
- In addition, the building will be constructed in the functional flood plain (zone 3b)
- If refused, enforcement action should be authorised to removed the existing timber frame

| Item 2 | One additional public representation has been received objecting to the application on the basis of: | 28 |

- Dangers of large vehicle movement on the local road network
- Noise pollution from operating of tunnel fans over a 24hr period causing continued disruption to village residents
- Traffic noise from fork lift movement of pallets etc on the Mushroom Farm is a continual nuisance from early in the morning.

Additional information from the applicant has also been received following publication of the committee report. This includes additional landscaping information and a plan setting out the location of tunnels on the original site which would be subject to conditions.

For information, Condition 15 requires verification testing prior to each tunnel being brought into use to
ensure that the specified noise attenuation measures achieve the required attenuation as set out within the noise impact assessment.

<tbody>
<tr>
<td>Item 4</td>
<td>None</td>
<td>50</td>
</tr>
</tbody>
</table>
| Item 5 | One public representation has been received. This objects to the application on the basis of:  
  - Creating a commercial enterprise on a residential estate which was design of residential dwellings only.  
  - Scale of proposal is more suitable on a site within a commercial area  
  - Insufficient parking. Only 4 parking spaces however proposal is for 6 staff. No parking for customers. Will result in parking on Bromedale Avenue. | 55 |
PLANNING APPLICATIONS AND OTHER DEVELOPMENT CONTROL MATTERS

NOTE:
Conditions of approval or reasons for refusal of planning permission as determined by the Committee are in summary form only and subject to the Director of Place’s final determination.

Applications referred back to Committee

    Parish : WORTWELL
